I hope you are working to alleviate any concerns you may have with Uber operating in SC. South Carolina has always been a state that recognizes the importance of low regulations and a competitive market economy. I hope you don't stand in the way of this choice for ride sharing in the state.

When taxis are so hard to find, Uber has answered our call promptly with clean cars and professional drivers. Please do not take this away. Competition keeps everyone striving for the best in everyone. There is room for both in South Carolina.

Subject: Uber

I travel to Greenville frequently and have found uber to be very useful to get around while in town. Taxi service there is spotty at best, and it takes a 1/2 hour for a taxi to come pick me up after I call. Uber is more convenient, safer and cleaner than taking a cab. Please do not force uber out of South Carolina.

Thanks for your time,
William Madison

Subject: Sc Needs Uber

I am saddened to hear of the loss of Uber in South Carolina. I have used Uber many times in SC as well as other states and have only had the best experiences. I, as well as many friends and family members, depend on Uber for transportation as a safe way to get around instead of drinking and driving. Uber is very reliable, safe, and honest with the up front fee. I also love how you get a picture of who is coming to pick you up. The ability the split fees with friends is awesome as it doesn't pin the fee on one person with the promise to pay back.

South Carolina was making strides to actually be on trend with a great service; however it never fails, South Carolina gets rid of or is the last to do things that make sense and work in the 49 other states. Getting rid of Uber would be a huge disappointment for many people.
